

ORAL COMMUNICATIONS

VI WORKSHOP ON PROBABILISTIC AND STATISTICAL METHODS

The oral communications will be held at the Anfiteatro Bento Prado Junior - UFSCar

MON 5 FEV

1- 15:00 - 15:20.

Estimation and diagnostic analysis in skew-generalized-normal regression models,
Clécio da Silva Ferreira (UFJF).

2- 15:20 - 15:40.

Poisson Reparametrized Birnbaum Saunders for the Fatigue Data,
Elizabeth Mie Hashimoto (UTFPR).

3- 15:40 - 16:00.

Bayesian Wavelet Shrinkage with Beta Priors,
Alex Sousa (UNICAMP).

TUE 6 FEV

1- 15:00 - 15:20.

Generalized fiducial inference for the Grubbs model,
Lorena Cáceres Tomaya (UFSCar/USP).

2- 15:20 - 15:40.

Frailty general model for repairable systems under minimal repair with observed covariates,

Amanda Morales Eudes D'Andrea (UFSCar/USP).

3- 15:40 - 16:00.

Avaliação de produtos baseada na presença de $m \geq 1$ características,
Demerson André Polli (UnB, UFSCar/USP).
